3 Countries

Future-Ready

BUSINESS CASE

The Challenge

A multinational glass packaging leader expanding across Europe faced mounting pressure from evolving tax and digital reporting mandates in Romania, Poland, and Belgium. Manual processes, compliance risks, and resource strain demanded an urgent, scalable solution.

PAIN POINTS

- 
Evolving Regulatory Mandates
 New e-invoicing laws in Romania, Poland and Belgium
- 
Manual, Inefficient Processes
 Traditional methods no longer sufficient for scale
- 
Non-Compliance Risk and Penalties
 Exposure to fines and reputational damage
- 
Finance Team Resource Strain
 Repetitive tasks diverting focus from strategic work
- 
Multi-Country Complexity
 Diverging local regulations across multiple jurisdictions

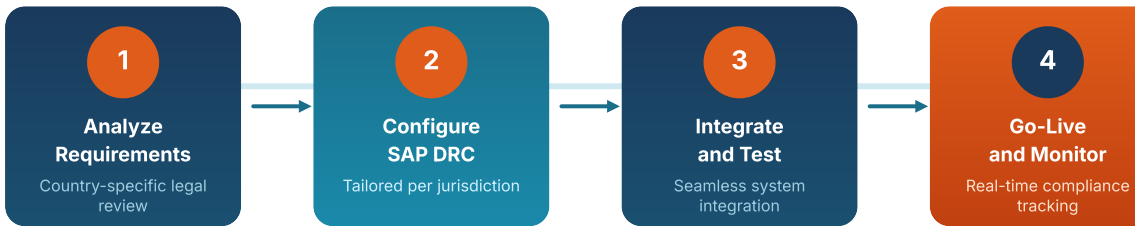

3 Countries
Simultaneously impacted by new mandates

BUSINESS CASE

KGT's Solution: SAP DRC Implementation

The client partnered with KGT to implement SAP Digital Reporting and Compliance (DRC), centralising and automating tax reporting across multiple European jurisdictions with minimal disruption to ongoing operations.

IMPLEMENTATION APPROACH

COUNTRY-SPECIFIC CONFIGURATION

<p>Romania</p> <p>RO e-Factura National e-invoicing mandate requiring structured XML invoice submission to the Romanian tax authority (ANAF).</p> <p><input checked="" type="checkbox"/> Fully Configured</p>	<p>Poland</p> <p>KSeF National e-Invoicing System (Krajowy System e-Faktur) for real-time invoice exchange via the central government platform.</p> <p><input checked="" type="checkbox"/> Fully Configured</p>	<p>Belgium</p> <p>Digital Reporting Structured digital reporting obligations for VAT and transactional data, aligned with Belgian tax authority requirements.</p> <p><input checked="" type="checkbox"/> Fully Configured</p>
---	---	---

Key Outcomes of KGT's Implementation

100% compliance across all three countries, automated reporting, centralised SAP DRC dashboard, and a scalable framework for future market expansion.

<p><input checked="" type="checkbox"/> Zero Penalties</p>	<p> Faster Reporting</p>	<p> Future-Ready</p>

BUSINESS CASE

Results & Impact

 **100% Compliance & Reduced Risk**

100%

Fully automated reporting minimised manual errors and ensured continuous compliance, giving the client peace of mind.

 **Increased Efficiency**

Automated

Automated data extraction and submission freed the finance team from repetitive tasks, enabling focus on strategic priorities.

 **Enhanced Visibility & Control**

Real-Time

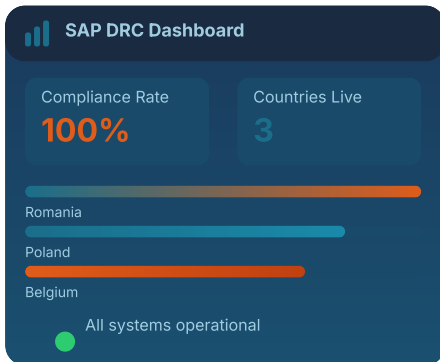

A centralised SAP DRC dashboard provides real-time monitoring and transparency across all three countries.

 **Scalability for the Future**

Future-Ready

The flexible solution allows the client to adapt quickly to new regulations and extend coverage to additional markets.

IMPACT

TRANSFORMATION SUMMARY

The SAP DRC implementation not only resolved immediate compliance challenges but also transformed the client's compliance strategy. By automating and centralising tax processes, the company reinforced its reputation for operational excellence and regulatory integrity. With a scalable, future-ready solution in place, the client is now better positioned to expand into new markets, respond swiftly to regulatory changes, and sustain long-term growth.
